

“Picture A Scientist” Movie Screening

Viewers will have access to the documentary film for 48 hours, between 12am PST on October 17th and 11:59 pm PST on October 18th.

A co-sponsored online event between ACS California Section, ACS Silicon Valley, and AWIS East Bay

PICTURE A SCIENTIST chronicles the groundswell of researchers who are writing a new chapter for women scientists. Biologist Nancy Hopkins, chemist Raychelle Burks, and geologist Jane Willenbring lead viewers on a journey deep into their own experiences in the sciences, ranging from brutal harassment to years of subtle slights. Along the way, from cramped laboratories to spectacular field stations, we encounter scientific luminaries - including social scientists, neuroscientists, and psychologists - who provide new perspectives on how to make science itself more diverse, equitable, and open to all.

PICTURE A SCIENTIST was an official selection of the 2020 Tribeca Film Festival, postponed due to the COVID-19 pandemic. The film's virtual theatrical run reached 47 theaters across the USA in June 2020 and raised money for two organizations advancing women of color in STEM.

[RSVP here!](#)

Watching link to be shared with attendees the day before the event.

The event is FREE and open to all.

However, any amount of donation is appreciated. No amount is too small!

All benefit will go towards an award/scholarship for women in science.
